

AccessPlus Environmental Policy

AccessPlus recognise that the pursuit of economic growth and a healthy environment must be closely linked and that ecological protection and sustainable development are collective responsibilities in which governments, business, individuals and communities all have a role to play. Environmental management is a corporate priority.

AccessPlus is committed to achieving environmental best practice throughout its business activities, wherever this is commercially possible and will prevent pollution from its business activities.

A continuous improvement process will help us to reduce our environmental impact.

We educate and train our staff to act in an environmentally responsible manner and ensure they are fully aware of the processes in place to help them support the business achieve our environmental objectives.

Internal environmental audits are conducted which will help us to measure our performance and ensure that we are meeting our objectives and compliance requirements.

We will ensure that our clients are aware of our environmental improvement process. We will work with our clients to support them in reducing their environmental impact.

To support this policy AccessPlus will operate a group EMS that within commercial guidelines ensures ISO 14001 conformance by adhering to:

- All relevant legislation
- All local bye-laws
- Ethical consideration of surrounding community e.g. noise, traffic flow etc.
- Maintaining relationships with utility suppliers to ensure compliance with all relevant operating conditions i.e. disposal of toner cartridges, placing inks etc in drains
- Having relevant expertise in each location
- Liaising with suppliers over most environmentally friendly packaging etc. i.e. non-recyclable packaging to be minimised
- Implementing in-house measures to consider best practices e.g. energy saving lights, water usage, re-cycling of waste
